

Cross Check

Ground truth

The human is taking off from the right back outside edge with a left toe-pick assist. Pushing off with a strong edge, creating

momentum for three full clockwise rotations in the air. Then the person extend slightly to brace for the landing, absorbing the impact

on the right back outside edge with precision. The movement flows seamlessly, showcasing both technical prowess and elegant.

Skate-LLM Caption

The human is taking off from the right with a left toe-pick assist, rotating clockwise in the air, and landing on the left foot, demonstrating graceful control and fluidity throughout movement.

**Event Extraction** 

- 1) Taking off from the right back outside edge with a left toe-pick assist.
- Three full clockwise rotations in the air. 3) Extending slightly to brace for the landing.
- 4) Absorbing the impact on the right back outside edge with precision.
- 5) The movement flows seamlessly, showcasing both technical prowess and elegance.

1) Taking off from the right back with a left toe-pick assist.
